Projects

Personal Portfolio Website • [↗](#)

A fully responsive portfolio website built from scratch using Flutter Web. It showcases my projects, skills, and experience with a clean UI/UX design.

Berry Cart App • [↗](#)

An online shopping app where users can browse products, purchase with secure online payment, and track their orders in real time

Book Hive App • [↗](#)

Book Hive is a book discovery app that allows users to search by title, author. Users can explore detailed book information and preview content, making it easy to find and browse books of interest.

Fit Index App • [↗](#)

FitIndex is a health app that calculates your Body Mass Index (BMI) based on height and weight. It helps users track their fitness level and understand whether they are underweight, normal, overweight, or obese.

Echo Chat App • [↗](#)

EchoChat is a real-time messaging app that allows users to chat instantly, share voice messages, and exchange images with ease. It provides a smooth and interactive communication experience.

X -YouTube • [↗](#)

A Flutter-based mobile app that fetches and plays YouTube videos using APIs, showcasing skills in Flutter development, API integration, and state management.

Languages

English - Proficient

Arabic - Native

Certificates

IOT Fundamentals from Cisco

January 2022 • [↗](#)

Internet of Things and Artificial Intelligence from NTI
