Dubai, United Arab Emirates, 00000

Flutter Developer experienced in building cross-platform mobile and web apps using Flutter and Dart. Skilled in state management, REST API integration, and Firebase. Focused on writing clean, scalable code and delivering responsive UI/UX.

Education

Bachelor of Computer science at The Egyptian E-learning University-Egypt, Cairo

September 2018 - September 2022

Grade: 3.04

Focused on software development, algorithms, and database systems. Completed projects in mobile application development and web technologies

WORK EXPERIENCE

Flutter Developer at Freelancer , Cairo

January 2024 - Present

- Present Built various mobile and web applications using Flutter with clean architecture and scalable code.

Flutter Developer – Personal Projects, Cairo

May 2024 - Present

- Developed multiple mobile and web applications using Flutter and Dart, including E-commerce, Weather, and Chat apps. Applied state management (Cubit, Riverpod, Provider) and MVVM architecture for scalable, maintainable code. Integrated REST APIs and Firebase for authentication, database, and real-time features. Built a personal portfolio website from scratch using Flutter Web and hosted it on Firebase

Workshops

Flutter Abu Dhabi & Dubai with Codemagic at Flutter Community Meetup , Dubai

September 2024 - September 2025

- Joined expert talks and sessions on Flutter performance and CI/CD best practices.

FlutterFlow Workshop at FlutterFlow Team , Dubai

July 2025 - July 2025

- Hands-on workshop on UI building and backend logic using no-code tools.

Snap AR Hands-on Workshop at Snap Inc, Dubai

June 2025 - June 2025

- Built AR experiences using Snap Lens Studio including face tracking and 3D objects..

Skills

Technical Skills: Flutter & Dart, State Management , Firebase , RESTful API Integration, SQL & PHP Basics, Git & GitHub

Soft Skills: Problem-Solving, Teamwork & Collaboration, Time Management, Communication

Design & Development Skills: Responsive UI/UX Design, Wireframing & Prototyping (Figma)

Volunteering

Delivered technical workshops with university families at Assiut University

Projects

Personal Portfolio Website • [↗](#)

A fully responsive portfolio website built from scratch using Flutter Web. It showcases my projects, skills, and experience with a clean UI/UX design.

Berry Cart App • [↗](#)

An online shopping app where users can browse products, purchase with secure online payment, and track their orders in real time

Book Hive App • [↗](#)

BookHive is a book discovery app that allows users to search by title, author. Users can explore detailed book information and preview content, making it easy to find and browse books of interest.

Fit Index App • [↗](#)

FitIndex is a health app that calculates your Body Mass Index (BMI) based on height and weight. It helps users track their fitness level and understand whether they are underweight, normal, overweight, or obese.

Sky Cast App • [↗](#)

SkyCast is a weather app that provides real-time weather updates. Users can search by city name to view current conditions, temperature, and forecasts with a simple and clean interface.

Echo Chat App • [↗](#)

EchoChat is a real-time messaging app that allows users to chat instantly, share voice messages, and exchange images with ease. It provides a smooth and interactive communication experience.

Languages

English - Proficient

Arabic - Native
